PRECAUTIONS

- 1) This is a high precision Game Pak. It should not be stored in places that are very hot or cold. Never hit it or drop it. Do not take it apart.
- 2) Avoid touching the connectors. Do not get them wet or dirty. Doing so may damage the Game Pak and/or the Control Deck.
- 3) Do not clean with benzene, paint thinner, alcohol or other such solvents.
- 4) Store the Game Pak in its protective sleeve when not in use.
- 5) Always check the Game Pak edge connector for foreign material before inserting the Game Pak into the Control Deck.

Note: In the interest of product improvement, Nintendo Entertainment System specification and design are subject to change without notice.

OBJECT OF THE GAME/GAME DESCRIPTION

Little Mac: A 17-year-old fighter from the Bronx in New York. He loves nothing better than a tough challenge.

Doc Louis: An ex-heavyweight who was a famous hard hitter in the U.S. around 1954.

It all began one day when Little Mac and Doc Louis met by chance. Doc became Mac's trainer, teaching him everything there is to know about boxing. Doc and Mac's story continues over a seemingly endless path, until one day a champion is born.

3. HOW TO PLAY

The title will appear when the START button is pressed during the demonstration display. Using the top and bottom of the \oplus control pad, select either a new game or continued game. If NEW is selected, the game will begin when the START button is pressed. If CONTINUE is selected, use the left and right sides of the \oplus control pad to select the pass key, then press the A or B button to input the pass key. If the pass key is correct, the game will begin from the boxing circuit corresponding to the pass key.

The title will reappear if the pass key is incorrect. Reselect CONTINUE and input the correct pass key.

- The game will begin with Little Mac ranked in 3rd place on the minor circuit. His ranking will go up each time he wins a match. If he loses, rematch or his ranking will go down.
- Little Mac will give up and retire if he loses a total of three matches.
- The World Video Boxing Association's (WVBA) circuits begin with the minor circuit and continue through the major circuit and the world circuit.

Pass Keys

- Pass keys will be displayed when Little Mac becomes the champion of the minor circuit and the major circuit. Write down the pass key when it appears. These pass keys can be input to begin the game from the bottom ranking in the major or world circuit, even when the game has been turned off before proceeding.
- Little Mac's match record and circuit level are saved with the pass key until he becomes circuit champion.

WVBA Rules

- A match consists of three rounds, each of which is three minutes long.
- A boxer is knocked out (KO) if he does not get up within a count of 10 after being knocked down.
- A technical knockout (TKO) is scored if a boxer goes down three times in one round.
- The referee determines the winner according to match points if time runs out in the 3rd round. (Watch out for unfair "hometown decisions" against Little Mac.)

Be sure to write down your pass key!

♥ Hearts (Mac's fighting spirit) :

Little Mac can punch whenever he has one or more hearts. He will lose a heart each time his opponent blocks or dodges out of the way of one of his punches, and will lose three hearts if he is punched by his opponent. When the number of hearts goes to zero, Little Mac is too tired to punch (he will change color), and must avoid punches by dodging or ducking to gain hearts.

☆ Stars:

The number of stars is the number of uppercuts that Little Mac can use. When he scores with an effective punch, a star will appear on his opponent's head and the number of stars will increase by one. Little Mac will lose one star if punched by his opponent and will lose all of his stars if he gets knocked down. The maximum number of stars is three.

Stamina Meters :

These meters show how much stamina Little Mac and his opponent have left. Stamina will drop when a boxer is punched. A boxer will go down if his stamina drops to zero; his stamina will recover when he gets back up (although the amount of recovery depends on the count on which he gets back up).

Once in each match Little Mac can receive advice from his trainer Doc and get a stamina boost if the **SELECT** button is pressed during an interval.

Match Points:

Match points are won when Little Mac punches his opponent. Uppercuts and effective punches win the greatest number of match points.

Defeat all your opponents, then come face to face with the legendary **Mr. Dream** in the dream fight!

Basic Technique

1. More of your punches will reach the opponent if you aim where he's not guarding.
2. Little Mac won't be able to punch when he's tired (when he has no hearts), and his opponent will immediately start punching. Dodge his punches and recover hearts.
3. Little Mac's left punch is a little faster than his right, but it's not quite as strong.

Winning Technique

1. Dodge opponent's punches and then punch back immediately. You'll startle your opponent (his face will show it). This is your chance — punch furiously and you should score.
2. If your opponent comes up on the count of 1 after you've knocked him down, go with an uppercut for a sure knock-down.
3. During an interval: Use the advice of trainer Doc Louis to your best advantage.

WARNING

DO NOT USE WITH FRONT OR REAR PROJECTION TV

Do not use a front or rear projection television with your Nintendo Entertainment System[®] ("NES") and NES games. Your projection television screen may be permanently damaged if video games with stationary scenes or patterns are played on your projection television. Similar damage may occur if you place a video game on hold or pause. If you use your projection television with NES games, Nintendo will not be liable for any damage. This situation is not caused by a defect in the NES or NES games; other fixed or repetitive images may cause similar damage to a projection television. Please contact your TV manufacturer for further information.

READ BEFORE USING YOUR NES

A very small portion of the population may experience epileptic seizures when viewing certain kinds of flashing lights or patterns that are commonly present in our daily environment. These persons may experience seizures while watching some kinds of television pictures or playing certain video games. Players who have not had any previous seizures may nonetheless have an undetected epileptic condition. We suggest that you consult your physician if you have an epileptic condition or if you experience any of the following symptoms while playing video games: altered vision, muscle twitching, other involuntary movements, loss of awareness of your surroundings, mental confusion, and/or convulsions.

COMPLIANCE WITH FCC REGULATIONS

This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna
- Relocate the NES with respect to the receiver
- Move the NES away from the receiver
- Plug the NES into a different outlet so that control Deck and receiver are on different circuits.

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. The user may find the following booklet prepared by the Federal Communications Commission helpful:

How to Identify and Resolve Radio—TV Interference Problems.
